

# Jason Scott Ferguson

---

**Education**                      2007                      University of Alabama at Birmingham                      Birmingham, AL

- B.S., Computer and Electrical Engineering.
- Minor in Mathematics

**Experience**                      2010 – Present                      Strategic Industrial Solutions                      Birmingham, AL

**Controls Engineer**

**Profile**

- Experience in building and design of industrial control systems, Process PID control systems, P&I design according to ISA standards, PLC installation and programming, motor controls, variable frequency drives, AutoCad Design drafting, SKM (PTW) power coordination studies, Arch Flash analysis, computer networking, broadband internet, computer systems, optical fiber and copper cable telecommunications, and electrical circuits.
  - Experience in building and design of industrial control systems, Process PID control systems, P&I design according to ISA standards, PLC installation and programming, motor controls, variable frequency drives, AutoCad Design drafting, SKM (PTW) power coordination studies, Arch Flash analysis, computer networking, broadband internet, computer systems, optical fiber and copper cable telecommunications, and electrical circuits.
